

FOR SERIOUS COLD THERE'S **SIRIUS HEAT™**

DURASTAR™

When it's exceptionally cold outside, you need an exceptional system. Durastar ductless outdoor units use Sirius Heat™ technology to function better in harsh conditions. These units combine highly efficient industry innovations to provide up to 100% heating capacity at 0°F and consistent performance in temperatures as low as -22°F.

Durastar Ductless Outdoor Units with Sirius Heat™ technology offer exceptional performance at extreme temperatures—down to a brisk -22°F.

- Up to 100% heating capacity at 0°F
- Low ambient cooling down to 5°F
- Quick-start compressor technology for fast heating on startup
- Included base pan heater
- High-efficiency inverter compressor
